CW-VEL-SQ-13-T4	6	Venetian Glass Bead Square Sleek 13mm Blue
F-GF-BDCP-SCAL-5	10	Gold Fill 1/20 14K Gold Scalloped Beadcap 5mm
F-GF-CL-TOG-9	1	14/20 Gold Filled Smooth Toggle Clasp, 9mm
F-GF-CRIMPTW-019	2	14/20 Gold Filled Twisted Crimp, .019 Wire, 2x3mm
F-GF-WIREPROT021	2	Gold Fill Wire Protector .021 ID, Per Piece

Instructions:

Step 1. Cut a piece of beading wire 12-15 inches. This is an asymmetrical bracelet so you can begin from the end with one of our transparent Vela squares, then the Gold Fill Bead Caps go on each side of the disc. So add one beadcap followed by the Basilica Disc and a bead cap. Repeat until you have the 6 transparent alternated with the Basi Disc.

Step 2. Add one Twisted Crimp and string the beading wire through the Wire protector, adding one side of the toggle in the center. Take the wire back through the crimp and down through the first bead. Push the crimp snugly up to the wire protector and crimp flat. Cut the excess wire.

Step 3. Do the same on the other end of your wire. This time you will need to pull the wire through the 1st bead being sure there is little slack in the bracelet. Cut the excess wire.
